

CLASS

Electronic tap

CLASS is the only three-photocell electronic tap, equipped with an ample 120 degree range of action that translates into highly comfortable use.

The battery charge signal led blinks twice every 6 seconds to warn that batteries will last about 3 more months.

CLASS uses standard AA size alkaline batteries, readily available in malls and retail stores. Easy to find, long-lasting.

Technical specifications

Power:

- 3x1.5V AA alkaline batteries, that guarantees a 4-year battery life with 200 activations per day
- 230Vac - 5Vdc safety transformer, IMQ approved and CEI EN 61558-1/-2-6 standard

Models and water supply:

- CLASS 20: with built-in mixer
- CLASS 10: for cold or pre-mixed water
- CLASS 30: with under washbasin mixer
- CLASS T: with mixer in the tap body

Operating features:

- Electronic tap equipped with DMP Infrared System photocell sensors, scratch proof and protected against calcium deposits
- Fully resined electronic circuit equipped with microchip programmed with DMP Sensor-Tech software
- Chrome-plated metal body (CLASS METAL), constructed with specific vandal-proof criteria, or shockproof ABS (CLASS ABS).
- Batteries housed in a waterproof battery case
- Flood and consumption protection devices that automatically stop water flow after 90 seconds of continuous use
- Flat battery warning light blinking twice every 6 seconds

Technical specifications:

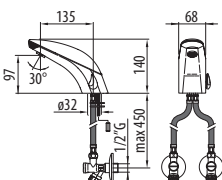

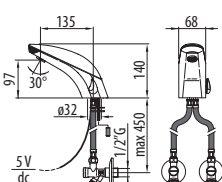

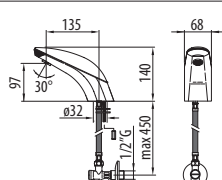

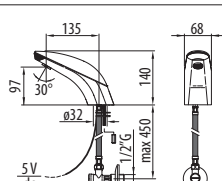

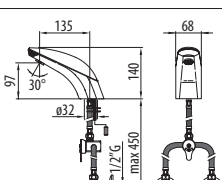

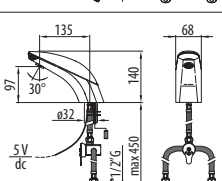

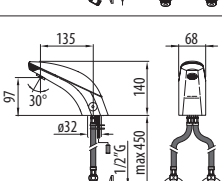

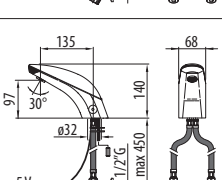

- Stop taps with 0.2 mm stainless steel mesh filters and non-return valves
- Built-in flow regulator (6 l/min.)
- Electronic circuit: 4,5 V
- Solenoid valve: 3 V (with dual internal filter)
- IP65 class protected electrical parts
- Sensors' range of action: 12 - 35 cm
- Water pressure: 0,4 - 10 bar
- Pipe fittings: 1/2 G
- Weight: See table (weight refers to the complete package)

Package contents:

- CLASS electronic tap complete with flexible DMP coupling tubes
- 2 DMP original stop taps
- Accessories and washbasin installation kit
- Technical documents
- Power transformer (for mains powered models)
- Battery case with 3 alkaline batteries set built-in the body (for battery powered models)
